Ahamed Aboo Adnan kp

Back End Developer

ahamedadnankp2003@gmail.com 7012011522 Calicut, Kerala LinkedIn GitHub

PROFESSIONAL SUMMARY

Backend Developer with strong expertise in PHP, Laravel, WordPress, and Python, specializing in scalable application architecture and efficient database systems. Adept at building secure authentication flows, RESTful APIs, and responsive user interfaces. Known for enhancing system performance, improving user experience, and delivering maintainable, high-quality code aligned with industry standards.

EXPERIENCE

Internship 12/2023 – 03/2024
MaiTexa Info Solutions Calicut, India
- Built a weather prediction system using Python and external APIs for real-time data collection and trend analysis.
- Applied machine learning techniques to forecast weather patterns with 85% accuracy.
- Maintained strong ethical standards by ensuring privacy compliance and minimizing bias in predictive models.

Back End Developer 07/2024 – 03/2025
Appziac Technologies Calicut, India
- Developed scalable web applications using PHP and Laravel, improving performance and user engagement by 20%.
- Optimized database models and queries with Eloquent ORM and MySQL, enhancing data flow efficiency by 25%.
- Designed responsive user interfaces with Blade templates and Tailwind CSS, increasing user retention by 30%.
- Implemented server-side logic using Laravel's MVC architecture to improve application performance and maintainability.
- Conducted code reviews and utilized Laravel's testing tools, boosting team productivity by 15% and reducing production bugs by 50%.

Software Developer 03/2025 – 11/2025
Brandstrek Coders Calicut,India
- Developing and maintaining robust backend services for real-world applications using the Django framework.
- Gaining experience in designing and integrating RESTful APIs to connect frontend and backend systems efficiently.
- Implementing database models and optimizing queries to improve performance and scalability.

Junior Software Developer 06/2026 – Present
Harwex Technology Calicut,India
- Developed and maintained web applications using PHP, WordPress, and MySQL, implementing new features and enhancing existing functionality.
- Designed and integrated RESTful APIs, customized WordPress themes and plugins, and optimized database-driven applications.
- Diagnosed and resolved application issues, performed testing and debugging, and collaborated with cross-functional teams to deliver high-quality software solutions.

SKILLS

- **Programming Languages:** PHP, Python, JavaScript, SQL
- **Frameworks:** Laravel, Laravel Livewire, Bootstrap, Tailwind CSS, Django REST Framework
- **Databases:** PostgreSQL, MySQL
- **Web Technologies:** HTML, CSS, WordPress
- **Developer Tools & Technologies:** GitLab, GitHub, Composer, Middleware, Blade Templates, Eloquent ORM, Postman, Slack
- **Soft Skills:** Team Collaboration, Project Coordination, Communication, Leadership

PROJECTS

Online Cart
E-commerce Shopping Store
Online Cart – E-commerce Platform
Tech: Laravel, Livewire, Blade, Tailwind CSS, MySQL, Stripe/Razorpay
- Implemented secure authentication for users and admins using Laravel Auth & Bcrypt.
- Added advanced search, filtering, and a complete cart workflow, enhancing user satisfaction.
- Built a real-time admin dashboard for tracking sales, inventory, and user insights.
- Improved product management through validated forms and efficient Eloquent operations.
- Boosted performance with responsive UI and optimized MySQL schema.

Rental Platform – BrandStrek Coders
Tech: Django, DRF, WebSockets, PostgreSQL
- Built REST APIs for user registration, vehicle listings, and booking management.
- Integrated real-time booking and availability updates using WebSockets.
- Ensured efficient data flow using well-structured PostgreSQL models.
- Collaborated with the team using Git and performed extensive API testing with Postman.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE 06/2021 – 04/2024
Safi Institute Advanced Study Malappuram, India
- Gained strong expertise in software development, algorithms, and database systems.
- Strengthened skills in data structures, networks, and operating systems.
- Led a web development project with integrated data visualization to improve user engagement.
- Built hands-on experience in machine learning, data analysis, and modern IT tools.

PLUS TWO BIOLOGY SCIENCE 06/2019 – 03/2021
Farook Higher Secondary School Kozhikode, India
- Conducted experiments in biology, chemistry, and physics using advanced scientific methods.
- Analyzed experimental data to solve complex biological problems.
- Collaborated with interdisciplinary teams to combine scientific principles for better research outcomes.
